Acknowledgements

I would like to acknowledge the invaluable and tireless efforts of Michael Curry, ET. His commitment, patience, tenacity, and understanding of Making Math Real are responsible for the formatting of my ideas and designs into a product ready for publication. In addition, I would like to thank Karen Zuniga, ET, for her significant time and energy in editing and reviewing this book.

Guidelines and Copyright Policy

The contents of this worksheet masters binder are highly specialized and require specific Making Math Real instruction in using the materials correctly. Consequently, this book is only available to course participants instructed in its use.

The worksheet masters in this book are ideal for supplementing any and all textbooks, and provide the Making Math Real course participant with specific and prescriptive practice designed to maximize the development of the associative and cognitive tools of central processing, retention, and concept-procedure integration.

All problem sets have been carefully designed to include all content combinations, configurations, increments and levels to ensure maximum connection and comprehension.

PLEASE NOTE: The use of these materials requires guided instruction from the educator to guarantee student success, and is never intended to be used as unsupported drill.

Adhere to Copyright Law

Permission to Copy is granted only to the purchaser of this book -- Making Math Real authorizes the use and duplication of the materials in this worksheet masters binder for educational use in the classroom or private practice, only. Additional requests for permission to copy these materials must be made in writing to: **Making Math Real, 900 Regal Road, Berkeley, CA 94708 or info@makingmathreal.org.**

LEVELED WORKSHEETS

SECTION I: SIMPLE FRACTIONS

Adding and Subtracting Fractions

Like denominators: Vertical and Number Sentence Formats	1
Concept Comprehension of Numerators and Denominators	6

Making Equivalent Fractions with LCD: Concrete

Practicing “Switch Cuts”	7
Making Fractions and “Switch Cuts”	9

Addition and Subtraction with Unlike Denominators: Concrete - Abstract

Concrete (“Switch”)	11
Semi-concrete (“Switch”)	14
Abstract (“Switch”)	18
Abstract in Number Sentence Format (“Switch”)	20

Addition and Subtraction with Like and Unlike Denominators

Vertical Format (“Ready to Go” or “Switch”)	22
Number Sentence Format (“Ready to Go” or “Switch”)	24

Least Common Denominator Progression

“Greatest Switch”: Finding The GCF of Denominators	26
“Greatest Switch”: Identifying Multipliers	28
“Greatest Switch”: Switching Multipliers	30
“Greatest Switch”: Generating Equivalent Fractions	32
TEACHER GUIDED: Connecting LCM to LCD	34

Addition and Subtraction with Unlike Denominators

Vertical Format with 9 Lines Organizer (“Greatest Switch”)	39
